

26th February 2013

The Foundation for Professionals in Services to Adolescents

I would like to take this opportunity to thank FPSA for their generous contribution towards my first year on my MSc course in Family and Systemic Psychotherapy. It is a two year part-time course, which will enable me to practice as a Family and Systemic Psychotherapist at the end of the course.

To apply for this course, participants need to have a Professional qualification and have completed the Introduction to Systemic Family Therapy course and the Immediate Systemic Family Therapy course.

The MSc course involves:

- Study of theoretical and clinical models in systemic and narrative therapy and consultation
- Direct and indirect supervision of clinical practice
- Study of culture, ethnicity and gender narratives in systemic practice
- Specific attention to individual participants professional and work settings
- Regular sessions devoted to personal and professional development

For more information about the courses, visit the website below:

<http://www.bch.nhs.uk/node/928>

I started the MSc course in September 2012. I have already learnt so much and I feel my practice is developing well. I am looking forward to continuing the course and I feel passionate about how this training will enhance my agency where I work, and myself (professional and personally).

Many thanks again,

Abigail Washington (Staff Nurse/Trainee Family Therapist, Inpatient CAMHS unit).
